BORDETELLA WAIVER

Bordetella is a canine respiratory illness similar to the flu. There are many strains of Bordetella. Dogs are particularly susceptible when under any kind of stress. Vaccines offered by veterinarians cover most but not all forms of Bordetella. Even if your dog has received the Bordetella vaccination, it is no guarantee against contracting the illness.

Bordetella Waiver: I understand that my dog can contract Bordetella even if he/she has been vaccinated, and I will not hold Wesner Grove Kennels, LLC or any of their employees or clients responsible in the event my dog becomes ill (Owner assumes any and all expenses.) We will make every effort to contact you as soon as reasonably possible in the event of any serious health concerns.

Although Wesner Grove Kennels, LLC has not had any reported cases of the illness, we want to be proactive in protecting all our client's pets and keep our facility free of Bordetella. Therefore, we strongly recommend our client's dogs be immunized prior to boarding or day care or to sign this release form indicating your choice to not get the vaccination for your dog.

If your dog has not received the Bordetella vaccination and you wish to board with us, you must sign below to indicate that you have read the information above and that you assume any and all risks to your dog's health should he/she come in contact with the illness before, during, or after your dog has stayed with us.

I have read the above information about Bordetella and understand the risks involved in not getting my dog vaccinated. I will not hold Wesner Grove Kennels, LLC, its owners, or associates liable should my dog(s) be subjected to the Bordetella illness.
